

Veolia Near & Middle East at a glance

Since 170 years, Veolia provides public authorities and industries with game changing solutions that are both useful and practical for water and energy management, generating a positive impact on communities and climate.

As the global benchmark company for ecological transformation, Veolia Near & Middle East is committed to delivering innovative, cost effective and sustainable solutions to its clients and to enhance their performance while contributing to "Resourcing the world" through our commitment as "We are resourcers". Our 3 businesses and areas of expertise:

WASTE

4.1 million tonnes
of industrial waste handled

ENERGY

149 MWh
distributed for district cooling

WATER

4.57 million people
supplied with potable water

SOLUTIONS TO ADDRESS OUR MAIN CHALLENGES

DECARBONIZATION

Veolia designs solutions for the climate that decarbonize our lifestyles and production methods and adapt them to the consequences of climate disruption.

ECONOMY & REGENERATION OF RESOURCES

Veolia invents green energy systems, recovers waste in the form of materials or energy, and promotes the recycling and reuse of wastewater and plastics.

3

DEPOLLUTION

Water, soil, air...
Veolia offers a range of solutions to treat all types of pollution. The Group is a recognized player in the treatment of hazardous waste and degraded soil, and is a specialist in indoor air quality.

OUR CORE BUSINESS

LOCAL LOOPS OF ENERGY

Our expertise encompasses the utilization of biogas, waste recovery, and solar energy to produce renewable energy.

We provide centrally-produced chilled water, providing residents and commercial buildings with an efficient, competitive, reliable source of energy.

ACCESS TO WATER AND SANITATION

Managing municipal water and wastewater treatment facilities, as well as networks, through Public-Private Partnerships (PPP) contracts with local or state authorities.

Our focus is on supporting local authorities by optimizing the cost of water, enhancing the quality of service, and co-developing innovative solutions for end-users.

WASTE TREATMENT & RECYCLING

As one of the major players in materials recycling management and circular economy initiatives, Veolia specializes in building entire value chains for recycled material trading.

Through these efforts, we contribute to resource efficiency, waste reduction, and sustainable development in the region.

HAZARDOUS & INDUSTRIAL WASTE

By managing hazardous waste effectively, we contribute to improving environmental impact and performance indicators.

Our services extend to handling various types of hazardous waste, including industrial solid and liquid waste, medical waste, and low-radioactive waste, providing tailored solutions to meet specific needs and regulatory requirements.

ON SITE INDUSTRIAL SERVICES

Veolia Near & Middle East provides on-site services for industries like Oil & Gas, Petrochemicals, Mining, Power, and Food & Beverage.

Our offerings extend to industrial cleaning and maintenance, along with Total Waste Management solutions, addressing the diverse needs of our clients while prioritizing efficiency and environmental sustainability. Management.
